Children in Child Welfare Supervised Foster Care as of July 1, 2003 (Age 0-18), Child Population, & Prevalence per 1,000 Children by Age & Ethnicity

Population Data Methodology

Population data for the years 1998-1999 are California Department of Finance population projections, which are based on the 1990 U.S. Census.

Population data for the year 2000 are from the 2000 U.S. Census.

Population data for the year 2001 are interpolated by averaging 2000 U.S. Census figures and Claritas Inc. population projections for 2002, which are based on the 2000 U.S. Census. Figures were calculated by averaging the data for 2000 and 2002 and then rounding this number. During this process 51 percent of cases were rounded upward.

Population data for the years 2002 and 2003 are based on Claritas Inc. population projections, which are based on the 2000 U.S. Census.

Children in Child Welfare Supervised Foster Care as of July 1, 2003 (Age 0-18),
